

Accessible Public Workshops at BioIntelligence. Elevate Your Entrepreneurship-Mindset: Join BioIntelligence's Innovative Workshops for Growth and Collaboration

Hanover (Germany), 10th August 2023 – BioIntelligence opens its doors to support innovative and ambitious business culture as part of our objective to "make knowledge tick." As a high-tech incubator, it is essential to accommodate such workshops to boost the growth of enterprises, particularly in the rapid start-up ecosystem.

BioIntelligence strives to assist businesses, whether they are established or just getting started, in remaining competitive and relevant through our workshops. We hope to provide entrepreneurs of a wide range of ages and backgrounds with a strong foundation for the ever-evolving economy and society. Whether you're an existing startup or want to explore the advantages of being a part of our high-tech incubator, discover the array of services BioIntelligence offers to its startups, showcasing the valuable support available in our incubator. Don't miss this opportunity to gain the knowledge and confidence needed to quickly navigate the landscape.

Rainer Blasczyk of [Allogenetics](#) and Mathis Vetter of [InCapSolution](#) at one of our previously disclosed BioIntelligence events

Our public workshops not only hone your skills but also provide a collaborative environment to leverage strategic partnerships. Through Q&A sessions and discussions, participants have the opportunity to engage with professionals from across a range of disciplines, encouraging creative thinking. Who knows? You could meet your next team member at one of our workshops!

“The HTI programmes have been great in supporting us in building a comprehensive network. We were able to successfully exchange ideas with many exciting startups. But at least as important as networking with investors and the great progress we made in our financings rounds.” - Rainer Blasczyk & Julian Meckfessel of [Allogenetics](#)

So, why wait? Visit our [Public Events page](#) and check on our upcoming workshops - we're happy to see you there!

Our events are primarily conducted in German, but we are happy to switch to English upon request to accommodate our international attendees.

About BioIntelligence

BioIntelligence GmbH is a Hanover (Germany) - based incubator and innovation hub founded in 2022. As a subsidiary of BioDigit e.V., the company is dedicated to seamlessly bridging the gap between knowledge, startups and industry in biotechnology, life sciences and medical technology. In its first operational year, 4 of its startups have closed their first financing rounds. This is made possible through BioIntelligence Incubator, also referred to as High-Tech Incubator (HTI) BioIntelligence, one of the high-tech incubators funded by Lower Saxony's Ministry of Economics. With access to a strong network of experts & distinguished scientific institutions and companies, a laboratory & co-working space, as well as 200.000 € in equity-free grants (all within the framework of the "HTI" guidelines from the ministry), startups in the BioIntelligence ecosystem receive tailored guidance to their specific needs.

In parallel, BioIntelligence Innovation addresses the entrepreneurial challenges of corporate innovation. Through BioIntelligence Innovation, startups, investors, and companies are connected and the supported partners gain accessibility to masterclasses, workshops and startup scouting, as well as individualised analyses of internal innovation dynamics.
